

## RECOIL

2. AFTER BALLOON DEFLATION  
THE DIAMETER OF THE CONTRAST  
FILLED STENT IS MEASURED

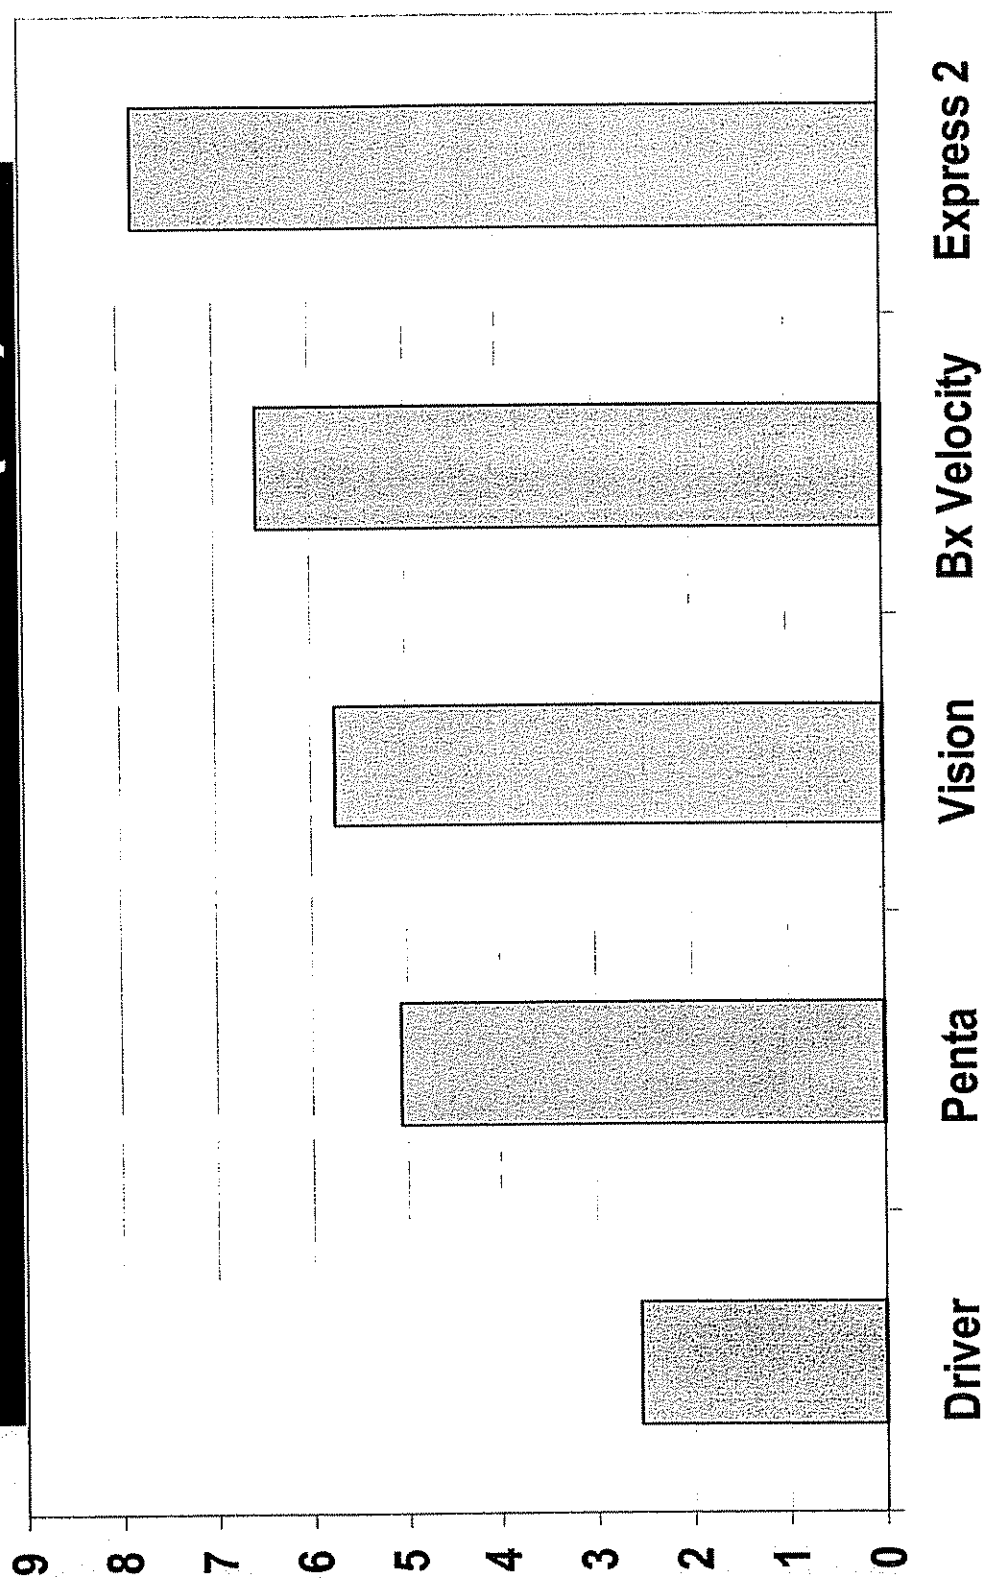

# % Diameter loss (Recoil) for 22 stents

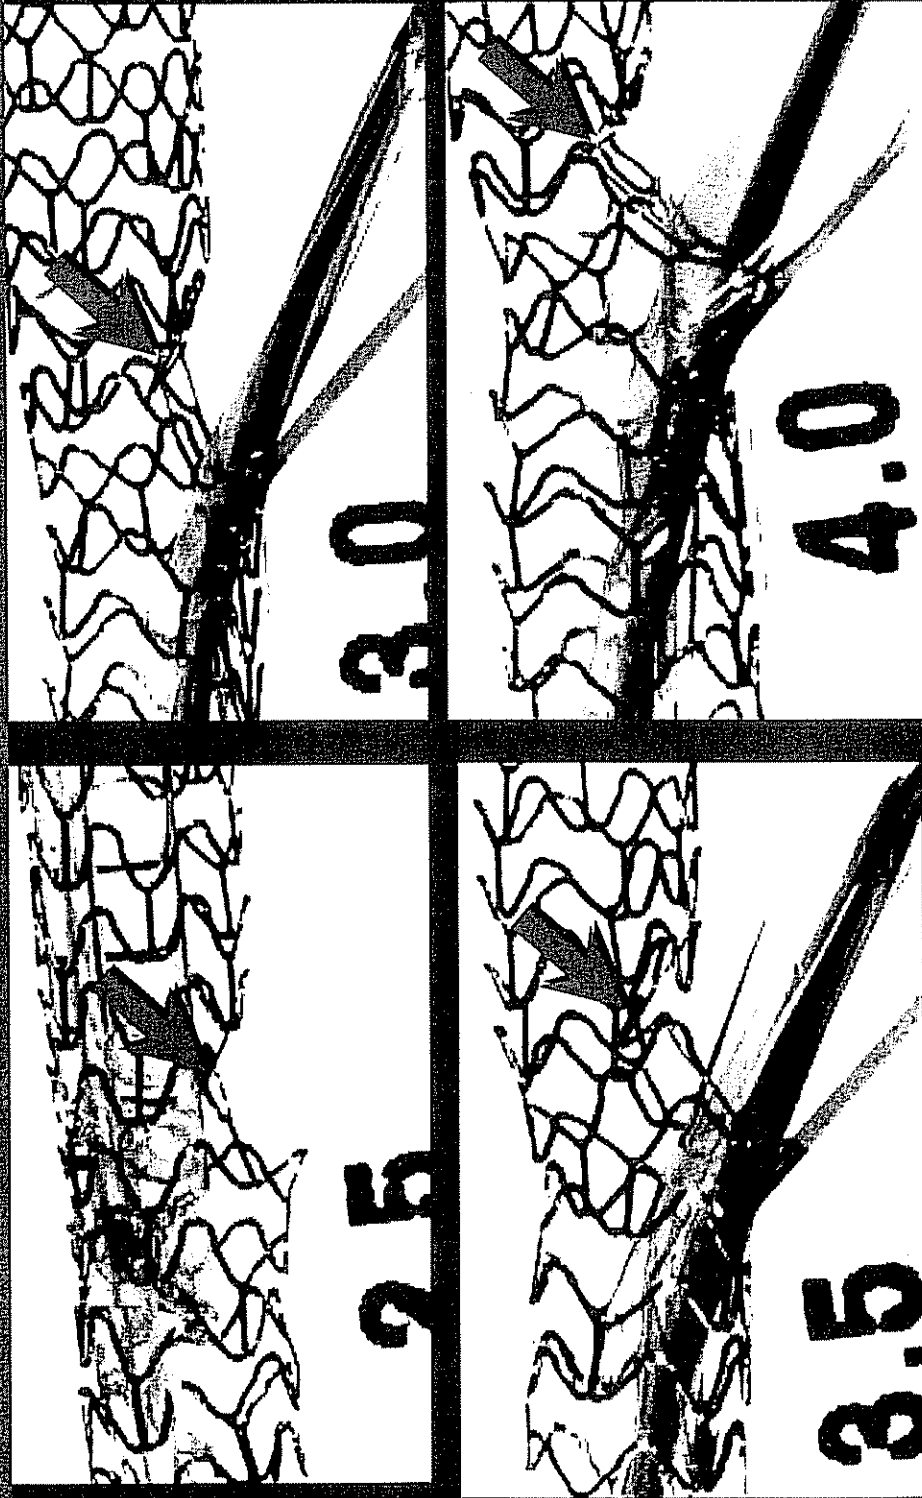

# Immediate Recoil (%)

**Stent distortion and  
cell size issues in  
bifurcation stenting**

**Stent distortion occurs with side-branch dilatation**  
**The larger the side-branch balloon, the greater the distortion**

# STENT DISTAL STENOSIS FOR DIFFERENT BALLOON DIAMETERS
